

# THE NEWS-BULLETIN

Vol. 1, No. 23

MOKENA, WILL COUNTY, ILL., FRIDAY, JAN. 16, 1920.

\$2.00 Per Year.

## WILL COUNTY FARMERS TO MEET

### MOKENA NEWS FROM VARIOUS SOURCES BY OUR REPORTERS

#### OPENS NEW LAW OFFICE.

Announcement have just been received from A. W. McGovney, former Mokena resident, now located in Chicago, stating that he has entered into partnership with John W. Tauchen, also of Chicago, and that they have opened offices in suite 401 to 404, 179 West Washington street, Chicago, for the general practice of law, under the firm name of McGovney & Tauchen. Mr. McGovney has been identified with the practice of law for a number of years. He was one of the promoters of the Mokena State bank and served as a member of the board of directors for some time.

#### BIG DANCE COMING

The Entertainers gave a successful dance on Saturday night. These dances have proven very successful so far. The next big event will be a BIG CONFETTI AND SNOWBALL DANCE which will be given at the Mokena Hall on Saturday, Jan. 24th. Music by Sweet.

The boys deserve the loyal support of the community as they are aiming to give the young folks clean amusement. R U Coming to these dances?

#### FIRST COMMUNITY SOCIAL.

The Ladies' Aid Society of the M. E. church will direct their first of a series of community socials at the home of D. M. Lockwood Friday night of this week. A good time is assured, as we all know that the Lockwoods are excellent entertainers. Last year these socials were held at the church, but this year these functions will be held at the various homes. Remember that these socials are not for money, but to promote the community spirit and to have a good time. Everyone is welcome. This is no denominational affair.

#### SHOW IN TOWN.

Mokena will be provided with a good show every night this week. A traveling show company is playing at the Mokena hall all of this week commencing Monday night. This company is putting on some good plays that are worth going to see.

#### RETURNS TO MONTANA.

Frank Liess, who had been visiting with Mokena relatives, has returned to Gage, Montana, the past week. He is much interested in an oil boom now on where his ranch holdings are located.

#### TO MOVE TO CHICAGO.

The Murdock family will have a public sale of household goods on Monday, January 26. They will move to Chicago. They have lived here over a year and have made many friends who regret to see them leave, but wish them much happiness in their new home.

#### THE SICK LIST.

Wm. Lorenz is recovering from a very serious attack of blood poisoning caused by a thorn piercing his finger while chopping wood. He has been laid up for several weeks.

Miss Hazel Klose, who has also been suffering with a severe case of blood poisoning, is much improved.

#### SCARLET FEVER CASES.

Mokena has an outbreak of scarlet fever. Wm. Lowe came down with the disease a few days ago and following him Roy Krapp also came down with the same disease. Both homes are under quarantine.

#### GO TO TEXAS.

Mrs. K. Knox and her mother, Mrs. M. Knox, left the past week for San Antonio, Tex., where they will spend the winter. They expect to return some time in April.

Miss Nora Groth has gone to Chicago, where she is keeping house for Rev. and Mrs. Hugo Stammer. Mrs. Groth recently underwent a very serious operation. She is improving nicely.

#### SUCCESSFUL STOCK SALE

Holstein cattle sold well at the Cleveland farm auction last week. Top for heifers being \$194.00, while several cows passed the \$200.00 mark.

#### Letter From Indiana.

New Lenox, Jan. 16.—Mrs. Mae Ritchey Hobbs, a former resident of this section, now residing at Scottsburg, Ind., writes a very interesting letter about her section of the state. She resides near the Indiana state forestry reservation. She writes the weather has been very mild and little fire has been needed. Several nights it got down to zero, but soon warmed up again.

The coal shortage had no terrors for them as the hills are covered with wood which can be had just for the hauling and cutting. In the fall the hills yielded an abundance of things such as nuts, paw paws, berries, etc., which grow profusely. Mr. Hobbs found a tree with 100 pounds of honey. So the family have sweets for all winter.

The one big feature which interests most is the fact that the profiteer's claws have evidently not reached that section of the country. Butter, mind you, good dairy butter, is selling at only 35 cents a pound. Compare that to prices we are paying in Illinois. Eggs, which are 55 cents per dozen, reached their high water mark when they sold at 70 cents per dozen, while in this state the sky seemed to be the limit on the price.

The country is beautiful and the hills and valleys are beautiful in scenic effect. Mrs. Hobbs states it would take an artist to portray the beauty of the landscape when the sun rises and at sunset.

#### LETTER FROM FLORIDA.

Fred S. Haven, well known former New Lenox resident, writes an interesting letter from Florida. He and his wife and two daughters are spending the winter at St. Petersburg, Fla. They live not very far from Mr. and Mrs. Frank Baumgartner and Mr. and Mrs. Charles Schmuhl. They get to see each other occasionally. The winters are very mild in that country. The thermometer registered 70 degrees on January 6, but the day before and on January 4 it went as low as 38 degrees. They have no snow, however, and the ground never freezes.

#### TO ENTERTAIN CLUB.

Mrs. Julius Hirsch will entertain the recently organized Home Improvement club at her home Thursday afternoon, Jan. 29. All the members are requested to attend. At this meeting a report will be heard from Mrs. M. S. Brickerhoff, president of the club, and Mrs. Albert Braun, chairman of the program committee, on the tri-annual meeting of the County Home Improvement club, which met Thursday of this week at the public library, Joliet.

#### R. N. A. INSTALL OFFICERS.

The Mokena Camp of the R. N. A. installed their recently elected officers last Tuesday at the Pfleger hall.

#### ENTERTAINS SOCIETY.

Miss Julia Hirsch entertained the members of the M. F. G. class of the Methodist Sunday school at her home Wednesday at their regular monthly meeting. A social time followed the business session. Mr. D. M. Lockwood is the teacher of this class.

#### ENTERTAINS LADIES' AID.

The Ladies' Aid Society of the M. E. church was entertained at the home of Mrs. D. M. Lockwood Thursday. There was a good attendance. Following the business session refreshments were served.

#### Explaining "Yankee."

Yankee "was a cant, favorite word with farmer Jonathan Hastings of Cambridge about 1713. . . . A Yankee good horse, or Yankee elder and the like. . . . The students (of Harvard) used to hire horses of him; their intercourse with him, and his use of the term on all occasions, led them to adopt it."—Will Gordon, "Independence of United States," volume 1, letter 12, page 482.

Were you ever kicked by a Missouri mule when you thought you had the "critter" tamed? Well, we have experienced a similar sensation during the past week while installing our Linograph:

### 38th ANNUAL ASSEMBLY

#### Opening Day at Beecher, Wednesday, February 4th.

Joliet is to Witness the Last Three Days of the Convention, February 5th, 6th and 7th, and the Auditorium the Setting For the Occasion—Record-Breaking Attendance is Expected.

Following is the program to be given by the Will County Farmers' Institute this year, which marks the thirty-eighth gathering of this body. The opening session will be held at Beecher on February 4, and the following three days, namely February 5, 6 and 7, the Institute will be in session at the Auditorium, Joliet. Following is the program for the entire session:

Beecher, February 4, Morning Session at 10 a. m.

Music, Weger's Orchestra.  
Invocation—Rev. G. Horst.  
"Permanent Systems of Agriculture for the Corn Belt," F. I. Mann, Gilman, Ill.  
Reading, Miss Martha Wylie, Plainfield.  
Music.  
11:20—"What to Do Until the Doctor Comes," Dr. Eva M. Wilson, Manhattan.

#### Afternoon Session.

1:15—Music, Weger's Orchestra.  
Reading, Miss Wylie.  
"How to Increase Crop Yields and Maintain Soil Fertility," Wm. Webb, Plainfield.  
Music.  
2:00—"The Patriotic Value of Home Making," Mrs. J. C. Mann, Joliet.  
Reading, Miss Wylie.  
2:45—"Weeds and How to Eradicate Them," F. I. Mann.

Joliet, Auditorium, Thursday Morning, Feb. 5.

9:45—Music, J. T. H. S. Glee Club.  
Invocation, Dr. Kirk Robbins, pastor Ottawa Street M. E. Church, Joliet.  
Reading, Miss Martha Wylie, Plainfield.  
10:15—Dairy Discussions: "The Value of a Pure Bred Sire in a Grade Herd," Frank Sprague, Lockport.  
"Pure Breds vs. Grades for Milk," E. V. Matthy, Middlebury.  
"Barn Equipment," Willard C. Owen, Mokena.  
"Feeds, Home Grown vs. Commercial," Werner Kreimeier, Manhattan.  
Vocal Solo, Rudolph Schoenstedt, Joliet.  
11:15—"The Cow, Her Present and Her Future," J. W. Kittle, Sec. Chicago Milk Producers' Association, Chicago.

#### Afternoon Session.

1:30—Community Singing, led by Prof. J. M. Thompson, Joliet.  
Reading, Miss Wylie.  
"Soil Fertility," Frank I. Mann, Gilman, Ill.  
Vocal Solo, Mrs. Fred Spangier, Elwood.  
2:30—"Values in Education," Prof. Aug. Maue, Co. Supt. Schools, Joliet.  
3:15—"The Real American," Margaret M. Banks.

#### Friday Morning, Feb. 6.

9:45—Music, J. T. H. S. Orchestra.  
Invocation, Dr. Arthur W. Hoffman, pastor First Presbyterian Church, Joliet.  
10:00—"Crop Rotation," J. C. Mies, Fairbury.  
Reading, Willa Jean Webb, Plainfield.  
10:45—Address, Wm. Buchanan, president Will. Co. Public Health Council, Joliet.  
"Community Libraries," Miss Anna May Price, Sec. Ill. Lib. Ext. Com., Springfield.  
Vocal Solo.  
11:15—"Should Farmers Organize?" Hon. Chas. Adkins, Dir. Agriculture, Springfield.

#### Afternoon Women's Session.

1:00—Music, J. T. H. S. Orchestra.  
Community Singing led by Mrs. Albert Hindle.  
Invocation, Mrs. Alice C. Storm, Joliet.  
1:30—Address, Miss Margaret Brooks, Teacher in Betty Stuart Institute, Springfield.  
Reading, Miss Harriet Benson.  
Paper, Mrs. John Cryder, Plainfield.  
2:40—Tribute to Mrs. John Baker, First President of the Women's Session.  
Vocal Solo, Miss Florence White.  
Reading, Miss Margaret Brooks.  
Flute Solo, Everett Shaw, accompanist, Fayette Shaw.  
3:15—Address, "A Woman's Problems," Mrs. Lena S. Mann, Gilman.

#### Saturday Morning, Feb. 7.

9:45—Music, Joliet Grade School Band.  
Invocation, Rev. E. C. Paustain, pastor Lincoln Highway M. E. church, New Lenox.  
Cornet Solo, Rev. E. C. Paustain.  
Report of Boys' Pig Club, Roger Couant, Plainfield.  
Reports of State Fair School, Elizabeth Eich, Elwood, and Walter Stetler, New Lenox.  
Reading, Rev. Thomas Keene Gale, Joliet.  
10:30—"Value of Fruit on the Farm," Senator H. M. Dunlap, Savoy.  
Music, J. T. H. S. Girls' Quartette.  
11:15—"The Latest in Education," Prof. C. W. Farr, Chicago.

#### Afternoon Session.

1:30—Community Sing led by Prof. J. M. Thompson.  
Election of officers.  
Report of Resolutions Committee.  
Vocal Solo, Mr. Geo. W. Jenkins, Welch Tenor, Chicago.  
2:15—"The Relation of Producer, Packer and Consumer as it Affects the Live Stock Industry," J. G. Imboden, Decatur.  
Vocal Solo, Mr. Jenkins.  
3:00—Patriotic Address, Dr. Euclid T. Rogers, Springfield.

### BREMEN STATE BANK ELECTS NEW OFFICERS AT TINLEY PARK

#### Tinley Park Lady to Wed.

Mr. and Mrs. Wm. Kott, of Tinley Park, Ill., announce the engagement of their daughter Mabel, to Mr. Frank Hoar, of Chicago.

Miss Agnes Hartwig entertained a number of young folks Monday night. The young people had a sleighing party and report the usual good time.

Miss Jerguson, teacher of the primary department of the Tinley Park Public school, who has been ill, has recovered, and has resumed her school duties.

As Mrs. Wm. Henke was going down the cellar steps at her home the door closed behind her, catching her dress and causing her to trip and fall down the stairs. Outside of a good shaking up and bruises she escaped serious injury.

This is the time of the year for card parties and Tinley Park is having them regular. Mrs. Fred Schmediknecht entertained one high last week. Wednesday Mrs. Wm. Henke entertained.

Erwin Mohr, son of Mr. and Mrs. Wm. Mohr is ill.

#### Frankfort Jottings

A big masquerade dance is coming at Frankfort. The Frankfort Hall Co., will conduct the affair which takes place Saturday January 24 and a fine array of prizes are offered. Music by Martin's Orchestra. Masks off at 11:30 p. m. Come, bring your friends and enjoy the time of your life.

As the result of heavy drift of snow the Lincoln Highway between here and New Lenox has been impassable and on Monday 40 autos were stalled.

On account of the inability of the editor to get to Frankfort due to helping in the installing a linotype at the News-Bulletin office. We hope to give double measure of news next week and we ask that our readers be patient with us.

#### News-Bulletin's New Machine

Mokena, Jan. 16.—The past week has been a very busy one at the News-Bulletin office on account of the installation of a new Linograph typesetting machine. This machine is similar to a linotype, only that it is not so complicated. The News-Bulletin will be set up on this machine hereafter. A great deal of composition work which has had to be done by hand heretofore will now be done on the Linograph. The machine arrived the last of the old year and was installed last Tuesday. The factory is in Davenport Iowa.

Mr. S. W. Sammons of Chicago,

Tinley Park, Jan. 16.—The annual meeting of the stock holders of the Bremen State Bank was held last Saturday. The reports showed an excellent business for the year. A dividend of six per cent was declared \$2,000 was placed in the surplus fund, bringing this fund to \$10,000; \$2,000 was placed in the contingent fund and \$1,700 was placed in the undivided profits fund.

The following board of directors was chosen: J. C. Andret, H. C. Bruggeman, J. C. Funk, Wm. Funk, Wm. Koehler, Henry Henke, George Henke, Fred Henke, Wm. Maihoff, Dr. Scheer, H. C. Vogt, Ernest Stetler, F. A. Harper.

The following officers were elected for the ensuing year: President, Fred Henke; Vice-President, George Schreiber; Sec'y, J. C. Funk, J. C. Andret; Assistant Cashier, Elizabeth Harding.

The basement under the Bremen State Bank is to be enlarged. At present there is only a small basement for the heating apparatus. It is planned to extend this basement under the entire length of the building. Bids are being received for this work.

Fred Goebel, our hustling and energetic census taker, is making every minute count taking the census of Tinley Park. He is on the job early and late rushing the job through.

The masquerade dance given by the Tinley Park Modern Woodmen of America, at the Saenger hall, was a scorching success. Over 300 tickets were sold. A large list of prizes were awarded.

The cold blasts of winter have no terrors for the Tinley Park citizens now. This week several carloads of coal were received by the Beatty Lumber Company, so the town is quite well supplied.

The membership of the Zion Lutheran church was increased by seven new members joining last Sunday.

The News-Bulletin Prints the News

## BUCKWHEAT FINE FOR POOR SOILS

Profitable Yield May Be Secured Where Wheat, or Even Rye, Cannot Be Grown.

### EXCELLENT AS COVER CROP

Can Be Grown on Land Where Spring-Sown Crops, Such as Corn, Have Failed to Make a Stand—Many Other Uses.

(Prepared by the United States Department of Agriculture.)

Buckwheat is in general the best grain crop for poor, thin land. Its natural and favorite environment is "back in the hills." On land where wheat or even rye cannot be grown with profit buckwheat is often able to produce a profitable yield. The climatic conditions, however, must be favorable.

On acid soils, which are quite common in the northern states, buckwheat does well. It does not require large supplies of lime in the soil, although lime is taken up largely by the plant.

#### Good Summer Cover Crop.

Low-grade fertilizers may be used to advantage in the growing of buckwheat, as it can make use of relatively insoluble materials to better advantage than the other grain crops. It may be used to render available insoluble phosphates, like rock phosphate, as these are taken up by the plant in larger quantities than by other small grains. To obtain the greatest benefit from such applications to follow crops, the buckwheat should be grown as a summer cover crop to be plowed under as green manure in preparation for fall seeding.

Buckwheat serves to make even very hard land mellow and friable. Consequently it is a good crop to use in preparation for such crops as potatoes.

As it has a short growing period, buckwheat can be grown on land where spring-sown crops, such as corn, have failed to make a stand. It can also be used where the land cannot be worked until late, or where other crops have been drowned out by late spring floods.

#### Enlarge Farm Activities.

Buckwheat can be used to enlarge farm activities. After other crops that must be sown early are all in there is often time to prepare land and sow buckwheat. On account of the short growing season it may be sown later than any other grain crop. Where it is so used it often may be advisable to sow it even on rich land which otherwise could be used more profitably for other crops.

Buckwheat is a suitable crop for growing on new ground. Land just cleared of timber or drained marsh land containing much decaying vegetable matter will produce good yields of this grain.

Farmers' Bulletin No. 1062 contains full information on this crop. Copies may be had free on application to the department of agriculture, Washington, D. C.

### SCRAPER FOR LOADING SOIL

Platform Arranged as Shown in Illustration Obviates Much Tire-some Labor.

Where dirt is to be taken out of an excavation and hauled away some distance, getting this dirt into a wagon bed is always a hard job. Where a

Loading Soil Made Easy.

scraper is used it is usually necessary to drag the dirt out of the hole and then shovel it into a farm wagon. By building a platform like the one shown here it is easy to load a wagon with a scraper and save a lot of hard work. The platform must be strong enough to stand up under the load of dirt and the extra pull that comes when the team drags the scraper up the incline. The check block stops the scraper and helps in dumping it into the wagon box.

### PURE AIR QUITE NECESSARY

Drafts Should Be Carefully Avoided and Poultry House Kept at Even Temperature.

Filthy air is practically breathing poison. Pure air furnishes the oxygen which keeps the life processes going and when the air becomes stale or foul, the birds become weak and sickly. The problem for the poultryman, therefore, is to let in plenty of air without drafts and without making the hen house so cold as to be uncomfortable. On almost all sunny days the windows can be opened when the flock is exercising, scratching in litter for its food, and that gives a chance to air the house thoroughly. Even in the coldest night the windows may be lowered a little at the top (very little when it is very cold) and the birds will obtain fresh air. If the wind blows in, a piece of burlap can be hung over the open space through which the air can get in and by which the wind can be kept out.

## IMPROVE QUALITY OF COUNTY LIVE STOCK

Unique and Successful Community Association in Virginia.

Specialists Believe There Is Fertile Field for Formation of Similar Clubs Throughout Country—Overhead Cost Saved.

(Prepared by the United States Department of Agriculture.)

One of the most unique and successful community breeders' associations of the country is located in Loudoun county, Va. It is unusual because instead of fostering the breeding and improvement of a single class of live stock, it sponsors the improvement of eight breeds and classes of live stock. The excellence of such a plan is that duplication in work and extra expense are eliminated, while the society is really standardizing the production of purebred live stock within Loudoun county.

Guernsey and Shorthorn cattle, Percheron horses, Berkshire and Duroc Jersey hogs, Shropshire sheep, and Rhode Island Red and Barred Plymouth Rock poultry have been select-

Purebred Guernsey Bull, the Type of Animal That Is Gaining Popularity Because of the Better-Sire-Better-Stock Campaign.

ed in public meeting by the farmers and stockmen of that section as the dominant breeds of the county.

The Loudoun County Breeders' association, organized in 1916 by joint efforts of the county agent, a progressive banker, and a few forward-looking farmers, has grown from an original strength of 60 to over 250 active members. Through its manager it purchases and sells live stock for its members and has been of marked influence in improving the character and quality of the county live stock.

Specialists of the department of agriculture believe that there is a fertile field for the formation of similar live stock breeding clubs throughout the United States. In some of the leading stock-producing areas four or five, or even more, individual breeders' clubs now exist, whereas one general organization saves an overhead cost and permits of the hiring of a paid business manager as in Loudoun county.

### CREOSOTE FOR FENCE POSTS

Best Preservative Treatment Consists of Boiling Wood in Liquid for Short Period.

Five cents' worth of creosote applied to a fence post will prolong its life many years. Posts that will last ordinarily but four or five years in the ground can be made to last 20 by treating.

Woods like beech, birch, maple, ash, poplar and others that are not ordinarily used for fence posts, can be made as durable as locust or cedar by a preservative treatment with creosote. This treatment does not consist simply in painting the post with creosote or in dipping it in creosote. While these treatments do some good, they do not insure deep penetration of the creosote into the wood or the filling of the cracks and season checks.

The best preservative treatment consists in heating the posts in boiling creosote for 30 to 60 minutes, then leaving them in the tank until the liquid has cooled. The creosote will be forced deeply into the wood and thus fill all checks and cracks and form an exterior shell of treated wood that will prevent rotting. An old, discarded gasoline drum with the top cut out, set up so that a fire may be built beneath, makes an excellent treating tank at little expense.

### USE Sires OF GOOD QUALITY

Recipients of Department of Agriculture Emblems Represent Scattered Sections.

Widely scattered sections of the country are represented in the list of the first recipients of the official emblem bestowed upon live stock owners by the United States department of agriculture in connection with the "Better Sires—Better Stock" campaign now in progress. Possession of this emblem shows that the owner has agreed to keep and use only purebred sires of good quality, and will follow to the best of his ability breeding methods leading to live stock improvement.

### LETTUCE FOR LOCAL MARKET

If Sold by Dozen It Often Pays to Dispose of It Before Maximum Weight Is Reached.

If lettuce is for a local market and sold by the dozen, it often pays to market before a maximum weight has been secured. It all depends upon the keenness of market and the need of bench for other crops.

## THOUSANDS OF DOLLARS LOST EACH YEAR TO DAIRYMEN THROUGH IMPROPER COOLING

In Times of Cold Weather Prepare for Hot Weather—Harvesting Ice in a Northern State.

(Prepared by the United States Department of Agriculture.)

Each year dairymen lose thousands of dollars from returned sour milk, poor butter, and low-quality cheese. These losses are largely due to improper cooling of milk and cream on the farm, according to dairy specialists. For good results milk and cream should be cooled to 50 degrees or lower and held there; and as this usually can best be done by the use of ice, dairymen should take advantage of any near-by lake or stream to obtain a supply of ice for next year.

#### Ice Costs Little.

The ice harvesting season fortunately comes at a time when there is the least work on the farm for men and teams, and consequently the actual money cost is usually not very great.

The quantity of ice needed depends upon the location of the farm—whether in the North or in the South, the number of cows milked, and the method of handling the product. In the northern states it has been found that, with a moderately good ice house, one-half of a ton of ice per cow is sufficient to cool cream and hold it at a low temperature for delivery two or three times a week. One and one-half or two tons per cow should be provided where milk is to be cooled.

#### Capacity of Ice Houses.

A cubic foot of ice weighs about 57 pounds, so in storing ice it is customary to allow from 40 to 50 cubic feet per ton for the mass of ice. At least 12 inches must be left between the ice and the wall of the building for insulation, unless the ice house has permanently insulated walls and an unusually large space for insulation beneath and above the ice.

Where a lake, pond, or stream of clear water is not available, some preliminary work in preparing the ice field will be required before freezing weather sets in. It is therefore advisable to make all plans for the work as soon as possible. Water for the ice supply should be entirely free from contamination or pollution. Ponds and sluggish streams usually have grass and weeds growing in them, so that the ice harvested is likely to contain decayed vegetable matter, which is always objectionable. They should, therefore, be thoroughly cleared of such growths before the ice has formed.

In some sections it is necessary to impound the water for producing ice. This may be done either by excavating, and diverting a stream into the excavation, or by constructing dams across low areas. In localities where very low temperatures prevail for several weeks at a time, and the supply of pure water is limited, blocks of ice may be frozen in metal cans or in special fiber containers.

In harvesting ice it is desirable to have a field of sufficient size to fill the ice house at a single cutting, as the thickness and quality of the ice will

be more nearly uniform, and the necessary preparation for cutting and harvesting need be made but once. In many instances, however, the size of the pond or stream is such that it is necessary to wait for a second crop in order to fill the ice house. The average farmer requires only a comparatively small quantity of ice, so that even a small harvesting surface will usually provide large enough, especially if ice is cut the second time. The square feet of surface required per ton when the ice is of different thicknesses is shown in the following table. Size of cake, 22 by 22 inches.

#### Square Feet of Ice Surface Required Per Ton of Ice.

| Thickness of Ice Inches | Number of Cakes Required Per Ton | Cutting Space Required Per Ton |
|-------------------------|----------------------------------|--------------------------------|
| 4                       | 31.3                             | 105.4                          |
| 6                       | 20.9                             | 70.2                           |
| 8                       | 15.6                             | 52.6                           |
| 10                      | 12.5                             | 42.1                           |
| 12                      | 10.4                             | 35.1                           |
| 14                      | 8.9                              | 29.1                           |
| 16                      | 7.8                              | 26.3                           |
| 18                      | 6.9                              | 23.4                           |
| 20                      | 6.3                              | 21.1                           |
| 22                      | 5.7                              | 18.1                           |

#### Few Tools Required.

When a small quantity of ice is to be harvested, but few tools are required. The following list contains those actually needed for harvesting ice on a small scale: Two ice saws, one hand marker, one pulley and rope, two pairs of ice tongs, two ice hooks, one pointed bar, and one straight edge. While these tools are all that are necessary, additional ones, such as the horse plow and marker, horse scraper and marker, and a calking bar are convenient and will help to expedite the work of ice harvesting.

### U. S. BUTTER EXPORTS SMALL

This Country Furnishes Less Than 1 Per Cent of Product That Figures in Trade.

(Prepared by the United States Department of Agriculture.)

In spite of vast grazing lands in the United States this country furnishes less than 1 per cent of the butter that figures in world or international trade, according to statistics recently compiled by the United States department of agriculture. However, the same fact, expressed in terms of the total number of pounds of butter exported, does not look so insignificant, since the annual total for at least one year in each of the last six decades has approached 30,000,000 pounds. There has been marked fluctuation in this country's exports of butter, the amount frequently dropping to less than one-third of the total for the big years. The relation between domestic and foreign prices has been the determining factor in these changes. During the last few years our exports, small as they are relatively, have been going to 70 different countries, colonies, and dependencies.

## MACHINERY SAVES LABOR IN CUTTING WOOD

Buzz Saw Operated by a Gasoline Engine.

(Prepared by the United States Department of Agriculture.)

Machinery is valuable in cutting firewood and is especially valuable now. Machinery speeds up wood cutting, and means more wood and therefore more coal saved.

A buzz saw or a drag saw will cut several times as much wood in a day as can be cut by hand and will do it much more easily. Wood-sawing machines are comparatively inexpensive, and when well cared for will last a long time. On farms which already have gasoline engines or other sources

of power, little extra outlay is necessary. Most of the outfits may be operated by a small number of men. Repairs and upkeep usually are moderate.

The cost of cutting a cord of wood with a buzz saw is approximately 20 cents. All small trees and cordwood can be cut readily with a buzz and circular saw, but logs above 10 to 12 inches in diameter can be cut best with a drag saw, although the latter will not cut so rapidly. The sawing outfit may be owned co-operatively or may be used for custom work.

## POULTRY

### WATER SUPPLY WON'T FREEZE

Heat Deflected From Lantern Top Around Pails, Keeping Temperature Above Freezing.

To make a non-freezable drinking fountain for the hen house the following material will be needed: One soap or cracker box; a lantern; two galvanized iron pails, about two-quart capacity; and enough heavy asbestos paper to line box with a double thickness to keep in the heat generated by the lantern and for fire prevention.

The box must be large enough to hold the lantern and two pails. Two holes are cut in the top of box, one at each end, allowing the pails to sink into the box with only about 3 inches protruding; inside the box, between the pails, the lantern should be placed. The heat will be deflected by the lantern top and the box around the water pails, thus keeping the water a few degrees above freezing even in coldest weather.

The box is placed on a platform. This, in addition to being a support for perches on which the fowls stand while drinking, is also the bottom of

The Deflected Heat From the Lantern Keeps Fountain From Freezing.

the heat box upon which the lantern rests. When filling or cleaning the lantern, the box and pails are lifted from the platform, and when filling the pails, they are simply removed from the holes.—Popular Science Monthly.

### ORIGIN OF MUSCOVY DUCKS

Breed Comes From South America and Is Very Active—They Are Useful for Crossing.

The Muscovy breed of ducks originated in South America. It is very active. The drake weighs from 11 to 12 pounds; the female only six to seven pounds. The period of incubation is from 34 to 35 days. The standard admits two varieties—white and colored Muscovy. They are used for crossing to some extent, and, unlike most ducks, are rather quarrelsome with one another, and the drakes with other poultry. They are cared for just as other ducks. The ducklings are fed largely on ground food with plenty of green stuff, which may be put in the mash. Water should be before all ducks constantly in such a form that they cannot get into it with their feet. Sand or coarse gravel should be put in the feed once a day. All ducks must have a dry place to sleep.

### STUDY OF MARKET DEMANDS

Mixed Flocks Will Not Produce Uniform Eggs or Meat, Most Desirable for Consumer.

Every poultry raiser should make a study of the market demands. A uniform color of eggs and flesh in poultry is desirable. A mixed flock will not produce uniform eggs or meat, and eggs from such a flock are not desirable for hatching.

### ESSENTIALS FOR HEN HOUSE

Keep Flock Comfortable by Furnishing Good Ventilation, Fresh Air and Sunshine.

House the flock comfortably; keep houses dry and well ventilated, allowing plenty of fresh air and sunshine. Remodel the old house—stop cracks and eliminate drafts.

Give hens a good straw litter to scratch in during the winter months.

## POULTRY NOTES

Be sure chicks do not become crowded.

It is necessary to save some of the old hens for breeders.

Ducks and geese can usually be raised very economically on most farms.

The wild breeds of turkeys are known as the North American, Mexican and the Honduras.

There are many farmers not now raising ducks and geese, but who could find raising them profitable.

Young hens will pay well for care and feed, but if they do not get good treatment they will not produce much profit.

Dampness is always more dangerous than cold, and that's why it is so important to have the hen house tight and dry.

## THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

### Woman's Precious Gift

The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

#### Moderated Ones.

## SAYS PILES ALL GONE AND NO MORE ECZEMA

"I had eczema for many years on my head and could not get anything to stop the agony. I saw your ad and got one box of Peterson's Ointment and I owe you many thanks for the good it has done me. There isn't a blotch on my head now and I couldn't help but thank Peterson for the cure is great." Miss Mary Hill, 420 Third avenue, Pittsburgh, Pa.

"I have had itching piles for 15 years and Peterson's is the only ointment that relieves me, besides the piles seem to have gone." A. E. Ruger, 127 Washington avenue, Racine, Wis.

Use Peterson's Ointment for old sores, salt rheum, chafing and all skin diseases. 5c cents. Druggists recommend it. Mail orders filled by Peterson Ointment Co., Buffalo, N. Y.

**FRECKLES** POSITIVELY REMOVED BY Dr. Berry's Freckle Ointment. Price 25c. Dr. C. H. Berry, Co., 2975 Michigan Avenue, Chicago.

## Mothers, Prepare for Trouble.

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances.

Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any ailing woman can safely take, because it is prepared from roots and herbs containing tonic properties of the most pronounced character.

It is not a secret remedy, because its ingredients are printed on wrapper.

Quincy, Ill.—"I was suffering intensely with ulceration and pains, indicating displacement, and was so weakened, run-down and nervous that I could not even do my own housework. When I commenced to take Dr. Pierce's Favorite Prescription, Golden Medical Discovery and Pleasant Pellets. For one whole summer I took a complete course of treatment with these medicines (exactly following instructions on wrapper) and from a miserable and afflicted woman I was transformed into a new being, full of health and strength, with no sign of inward trouble whatever. "I feel most grateful for what Dr. Pierce's medicines have done for me and take pleasure in telling others about it."—Mrs. Anna Littleton, 416 Vine St.

East St. Louis, Ill.—"Dr. Pierce's Golden Medical Discovery has been used by our family for three generations. My grandmother used it. Mother used it for a run-down condition and cough and it strengthened her and built her up. I have used it myself after having a gripe and found it a true builder."—Mrs. Pearl Gale, 603 Pennsylvania Ave.

## After Three Physicians Failed Dodd's Kidney Pills Give Prompt Relief

Here's one of the many unsolicited testimonials which reach us from every section of the United States. Thousands upon thousands have been relieved of their kidney complaints and there is no reason why Dodd's—standard for two generations—won't give you the same prompt benefit.

Mr. B. C. Birchler of Fulda, Ind., writes, "In the year 1905, I was very low with a severe attack of kidney trouble and three noted physicians had given me up expecting death at any moment, but death did not come and I lingered for several months until accidentally one day I found an old Dodd's Almanac in my house which described symptoms exactly as mine. I then procured a box of your pills and took a double dose and the second day actually felt relieved. After a week I felt so good that I was glad to be alive. I continued using them for a time and they cured me."

This was fourteen years ago and I can truthfully say I have never yet been laid up with the same disease. A severe attack of 'flu' last winter affected my kidneys to a certain extent so I bought three boxes of your pills and used them for my whole family with the same good results.

If your dealer can't supply you send us in stamps to the Dodd's Medicine Co., Buffalo, N. Y. Tell us the name of your druggist.

## HOME MADE TEA FOR CONSTIPATION

Is used by entire families because it is purely vegetable, does the work and costs very little.

Why pay high prices for Liver and Bowel remedies when none are better than Dr. Carter's K. and B. tea, which is purely vegetable, can be brewed at home, and a small package will last a long time.

Thousands of old people will tell you they have been drinking it for years, and after the liver and bowels have been put in fine condition in a few days by a before bedtime cup, that only an occasional cup is afterwards necessary to keep one feeling fit and fine.

People who drink a cup of Dr. Carter's K. and B. Tea once in a while, seldom, if ever, have any bilious attacks, sick headache or sallow skin. It's good for boys and girls, especially those who are peevish and fretful. Druggists have been selling it for many years.

S. C. Wells & Co., Le Roy, N. Y.

## Raise Guinea Pigs for Us

We can use thousands of them. We supply you with foundation stock. One female can earn from six to ten dollars per year. Some females have four at a litter four times a year. Big money in them. Easy to raise. Send for particulars and book. Price low.

## SEASONABLE FOODS.

To each man is given a day, and his work for the day. And once, and no more, he is given to travel this way. And woe if he flies from the task, whatever the odds. For the task is appointed to him on the scroll of the gods.

—Edwin Markham.

For those who enjoy kidneys the following dish will prove worth a trial:

**Beefsteak and Kidney Pie.**—For an ordinary pie use one pound of round steak and four or five lamb's kidneys. Cut the steak in pieces an inch

and a half long and wide. Cut the kidneys through the center. Put the kidneys into cold, slightly salted water and allow this to come slowly to the boiling point. As soon as the boiling point is reached, draw off the water, add cold, salted water and boil again. Then drain, rinse well and add the kidneys to the steak.

In the meantime, roll the pieces of steak in seasoned flour, and brown nicely in a frying pan. Cover with water; add a pinch of marjoram, summer savory, and a few grains of nutmeg. Simmer until the meat is tender. Add any further seasoning needed. Thicken the gravy with flour and butter. Pour the meat into a pie dish with gravy enough to cover and then add the pastry top. Serve either hot or cold.

**Pastry for Meat Pies.**—Cream together one and one-half tablespoons each of lard and butter. Put this into one cupful of flour which has been mixed with one-half teaspoonful of salt and one teaspoonful of baking powder. Add enough cold milk to make the particles stick together. Roll and cover to the edge of the dish. Leave an opening for the steam to escape. Serve from the dish after baking a golden brown.

**Lemon Honey.**—Cream one cupful of butter, add one-half cupful of sugar and mix until well blended. Beat in two-thirds of a cupful of honey and beat in a double boiler, beating until well blended. Beat four egg yolks until thick, add the rind of a lemon, turn into the mixture and cook until thick. Add the juice of two lemons and stir until the mixture is like thick cream. This will keep if put into covered jelly glasses. Is very nice for cake or sandwich filling.

**Company Cake.**—Cream one-half cupful of softened (not melted) butter substitute with one cupful of sugar, add the yolk of one egg and one whole egg and cream until well mixed. Save the egg white for the frosting. Add one teaspoonful of cinnamon and half a teaspoonful of cloves. Mix well and add one cupful of canned berries, juice and all. Sift one teaspoonful of soda with two cupfuls of flour and add the first mixture; beat well and pour into a well greased loaf tin. Bake in a moderate oven. Cover with boiled frosting, using the egg white, one cupful of sugar and one-third of a cupful of water boiled together until it hairs, then pour over the stiffly beaten egg white.

**Chocolate Sauce for Ice Cream.**—Melt two squares of chocolate in one cupful of hot water, add two tablespoonsfuls of flour to one cupful of sugar; when well mixed add to the chocolate and water, with a pinch of salt; cook until, smooth, remove from the heat and add a teaspoonful of vanilla.

## WAYS OF SERVING POPCORN.

Happiness is the natural and the normal; it is one of the concomitants of righteousness, which means living in right relations with the laws of our being and the laws of the universe about us. No clear-thinking man or woman can be an apostle of despair.

First pop the corn. Corn should be popped over a hot fire, but care should be taken not to scorch the grains. If a wire popper is used, hold it far enough from the heat to prevent burning. The right degree of heat should make good corn pop in about a minute and a half. Too strong heat will cause some of the kernels to pop sooner, but many will not pop at all. If corn pops well the bulk should be increased 20 times.

Do not throw away the "old bachelors" (those that won't pop), but put them through the coffee mill or meat grinder and serve as a breakfast food; they give variety and are far superior to many breakfast foods.

Sugared popcorn is another nice confection. Make a sirup by boiling together two cupfuls of sugar and one of water until the sirup hairs or hardens in cold water. Pour this sirup over six quarts of popped corn and stir until the grains are well coated.

A handful of fluffy white kernels of well popped corn will add to many desserts or entrees.

Serve a few kernels on the sherbet glass of junket or on the boiled custard over a soufflé just before taking to the table.

## HOUSEHOLD HINTS.

Life, or rather life in a continually expanding form, is after all a business, and they who are the most in earnest get from it the most and in turn give the most back to the world again.

Experiments show that cooked rhubarb added to such fruits as strawberries and raspberries makes a preserve of fine quality. Rhubarb being common and cheap, while the berries are not always so, it is a suggestion worth noting. This mixture may take place after the fruits are cooked, but of course the results will be better if both are cooked together when fresh. Use one part of the berries to two parts of rhubarb.

Save all juices from canned fruit, if but a tablespoonful in the jar; mixed with two or three of some other flavor, one will have enough to flavor a pudding sauce, lemonade or baked apples.

Put the last few spoonfuls of horse radish left in the glass into the pickle jar to keep the vinegar in good flavor.

Sprinkle dried bread crumbs over string beans cooked for the table, then add paprika and celery salt for seasoning.

When half an onion has been used, turn the cut side down on a small plate, and it will keep fresh for days. A bunch of parsley, if washed and put into a mason jar, sealed air-tight, will keep fresh and crisp for two weeks. Leave enough water clinging to the leaves to keep them moist.

Apple juice and pulp combines well with many fruits and berries, extending the delicate flavor of choice fruit and reducing the cost which might otherwise be prohibitive.

A slice of pineapple will flavor a large dish of milder fruit; so will quinces and oranges combine with apples for marmalade.

Apple juice with peach or cherry, strawberry or other fruits which are hard to thicken, makes very good jelly which would otherwise be sirupy.

Cranberry juice is another good fruit extender; added to fresh strawberries it makes a beautiful and tasty preserve. Strawberries, when canned, often lose their color, but with cranberries this is overcome.

Quinces cooked with cranberries makes a fine mixture; use one-third cranberries to two-thirds quinces, then proceed as for any jelly.

## FOOD FOR THE CHILD.

So make it your intention With proper comprehension To see the world from every point of view. Smile on if you're defeated, Or smile if you think you're cheated; Smile on and soon the world will smile on you!

—Caroline Sumner.

Children are far more restricted in their diet than are grownups, and they are more dependent upon special foods. We all need a diet so balanced that it will produce the highest efficiency, but the food for a growing child must do more than that. The growing child is building new flesh and bone. For this reason the child should have a larger proportion of body-building foods than adults. Milk is the most important; eggs, butter and well-cooked cereals, with top milk, are very important in the diet of the child.

We are told repeatedly by those who have made a study of the diet of the child that no mother should buy a pound of meat until she has purchased a quart of milk for each child in her family. Milk is the ideal food for the child. It contains the elements needed to promote growth with the exception of iron. This element is given the child in such vegetables as spinach, beet greens and carrots.

As the child grows and becomes very active other foods are added, such as starchy foods, which supply energy. When milk is unpleasant to the child give it to him in cream soups, custards and cocoa. The older members of the family may be underrated on milk, but never let the children want for it. Dishes made chiefly of milk, meat, fish, poultry and egg, with meat substitutes, form the most important group in the well-balanced ration. Then come cereals and bread; then fats, of which the most important is butter. Do not give children fried foods which are hard to digest. Fruits and vegetables are next; then simple sweets such as dried fruits or pure candies. Candy should always be given at the end of the meal, never before.

Wheat taken from the granary, well washed, soaked over night, then cooked in the same water until well cracked and covered with gluten, is one of the most desirable of foods for growing children. Serve it with top milk.

No girl need lack friends if she is ready to be a friend. Kindness, sympathy, helpfulness, and an interest in others are the indications of a friendly nature. And one who forgets himself and lives for others will not lack friends.

Nellie Maxwell

## DADDY'S EVENING FAIRY TALE

By Mary Graham  
Donner Author

### STEVEY SKUNK'S REASON.

"Every night," said Stevy Skunk, "I go a-wandering. I look for food and I wander about."

"You most certainly do wander," said Cousin Skunk. "But then we all go about a good deal at night."

"Yes," said Stevy Skunk, "night is a good time for us to go market-ing and wander-ing and adventur-ing. It is a time when folks aren't around so much and when we're more safe and less annoyed by people."

"We wouldn't mind them, though, if they didn't mind us. We would be nice and gentle and good-natured and sweet—for we really are all of that."

"Of course," said Cousin Skunk, "they object to the odor we have."

"I suppose," said Stevy, "that everyone has a different opinion about it, but for my part I like it. Now I wouldn't go shopping as some people would do and say, 'Yes, please Mr. Shop Keeper, I'd like a bottle of violet perfume, and have you any rose toilet waters?' I think they'd be delicious."

"Why, I'd be mad, utterly mad, if I did such a thing. Anyway, they wouldn't want me in the shops and as I know it I don't go."

"That is where so many people make a great mistake. They try to make folks like them that won't like them and they try to be friendly with those who won't be friendly."

"Don't you often do the same thing yourself?" asked Cousin Skunk.

"Yes, I do," said Stevy, "but I don't mean to at all. I mean to keep away from everyone I don't like—that is, from everyone who doesn't like me, for I would like them gladly enough if they would like me. But then the reason I don't keep away any more than I do is because—well, it is because of the reason."

"What is your reason?" asked Cousin Skunk.

"I imagine," said Stevy Skunk, "that I have an excellent reason."

"You'd better tell it to me to make sure," said Cousin Skunk.

"Ah," said Stevy, "so you consider yourself a good judge of reasons."

"I do," said Cousin Skunk.

"I wouldn't say you were especially modest," said Stevy.

"Oh, well," said Cousin, "I'll tell you the truth. I am really modest but I think it may make creatures think I amount to a lot if I say I do."

"You couldn't keep that up for ever, though," said Stevy.

"Well, I guess that's right," said Cousin; "perhaps I'd be safer not trying it."

"I think you would," said Stevy.

"But your reason," said Cousin.

"Oh, yes," said Stevy. "I have a reason for going outside a certain window and sitting on the lawn each night."

In the summer I dig it and now I scamp across the snow and also give her a good look at me. And I dash under the house if I become frightened at any sound and I give my odor which protects me if I am thoroughly frightened. She is a girl I'll have you know."

"She doesn't like the odor because she closes her window when I give it, but at other times she sits all wrapped up and watches me at night. She doesn't do anything to hurt or frighten me and so I am friendly with her."

"I'd like to make other people feel the same way about me, and that is the reason I show folks I'm gentle, but the reason why I try to show the girl how I act and what I do is because I heard that she was studying the ways of animals, including skunks, and that she watched a little friend of hers (meaning me) every evening so as to understand them better."

"And she is going to write an article on the 'Ways of Skunks and Others' and I am helping her. I am!"

Trying to Keep Cool.

"Why, Charles, what upon earth are you doing here?" asked the mother of a small boy as she opened the door of the big refrigerator and saw the little fellow sitting inside.

"Well, you see, I've to speak a piece at school this afternoon," replied Charles, "and papa said I'd do all right if I kept cool."

No One Need Lack Friends.

No girl need lack friends if she is ready to be a friend. Kindness, sympathy, helpfulness, and an interest in others are the indications of a friendly nature. And one who forgets himself and lives for others will not lack friends.

## Thousands of Happy Housewives in WESTERN CANADA

are helping their husbands to prosper—are glad they encouraged them to go where they could make a home of their own—save paying rent and reduce cost of living—where they could reach prosperity and independence by buying on easy terms.

**Fertile Land at \$15 to \$30 an Acre**—Land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such crops come prosperity, independence, good homes, and all the comforts and conveniences which make for happy living.

**Farm Gardens—Poultry—Dairying** are sources of income second only to grain growing and stock raising. Good climate, good neighbors, churches, schools, rural telephone, etc., give you the opportunities of a new land with the conveniences of old settled districts.

For illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, and Alberta, reduced railway rates, etc., write Department of Immigration, Ottawa, Can., or C. J. BROUGHTON, Room 412, 112 W. Adams St., Chicago, Ill., M. V. McINNIS, 176 Jefferson Avenue, Detroit, Michigan Canadian Government Agents.

**Opening the Floodgates.** "Did Marks take a prominent place in the late war?" "Did he? Ask Marks."

**SWITCH OFF!** Put aside the Salts, Oil, Calomel, or Pills and take "Cascarets."

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely whipping them into action every few days with Salts, Cathartic Pills, Oil, or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets gently cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the colon and bowels all the constipated waste matter and poisons so you can straighten up.

Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, or cause any inconvenience, and cost so little too.—Adv.

**BOSCHEE'S SYRUP.**

A cold is probably the most common of all disorders and when neglected is apt to be most dangerous. Statistics show that more than three times as many people died from influenza last year, as were killed in the greatest war the world has ever known. For the last fifty-three years Boschree's Syrup has been used for coughs, bronchitis, colds, throat irritation and especially lung troubles. It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning. Made in America and used in the homes of thousands of families all over the civilized world. Sold everywhere.—Adv.

Which would you call the harder job—to put common sense into a dreamer or a soul into a corporation?

**Blind.**

A New York lawyer had a rich client who was noted for her very haughty manner. One day while out in her automobile she ran over a poor old woman and was arrested.

"Oh, Mr. B—, do you think you will be able to get me out of this?" she said to her lawyer.

"Undoubtedly," he replied, with a twinkle in his eye. "I'll prove conclusively to the court that you've never been able to see anyone worth less than \$100,000."

**The Stingiest Man.**

It happened in our office the other day. It was around the end of the month and I was preparing the bills.

A client of ours came in, asked to see my employer, who was busy and he had to wait. Seeing the bills, he asked me if his was ready. I told him it was and went through them and found his. I gave it to him and remarked that it would save me the trouble of mailing it. Then he said, "I'll take the two cents."—Exchange.

**Never Thought of That.**

"Oh, dear, I'm bothered to death."

"Over what?"

"Two men want to marry me and I can't tell which to accept."

"I'd take the one I loved the best."

"Why, that is a unique idea. It never occurred to me. I'll think it over along those lines."—Louisville Courier-Journal.

**An Old Tightwad.**

I rented an agent; had never met the real owner of the place. The agent had promised a new furnace.

A little man in overalls came to the door and said he wanted to see the furnace.

"Now, look here," I said as I followed him downstairs, "when you bid on this furnace make it a big one. The owner of this place is an old tightwad, but he's got lots of money, so make him come across."

"I'm not bidding on any furnace; I'm the owner of this house," he answered.

—Exchange.

**Why pay high prices for coffee when**

**POSTUM CEREAL**

**costs less and is better for you!**

**There's been no raise in price.**

**Usually sold at 15¢ and 25¢**

## Why we are late.

The News-Bulletin is late for the reason that mechanical difficulties in connection with the operation of a new linotype machine have been a source of the most trouble, but we have now tamed the wild animal and expect to get the next issue out on usual time and ask our readers to be patient with us for this unavoidable delay. The editor felt much aggrieved that the delay took place.

## Start The New Year Right

By taking out that Policy that you wanted to take out last year. For you don't know if you will be among the living at the close of this year, 1920. Don't take chances, for we all know we must go on that long journey never to return, for your family will still have to eat, buy clothes, and pay bills the same as you do today. Insurance means today -- right now.

Lutheran International Insurance Co.  
FRED GOEBEL, Agent.

Bell System

For one year the Bell Telephone System, as well as other telephone, telegraph, cable and radio systems, was under control and supervision of the government of the United States. This was a war measure, designed to give the war agencies of the country the fullest use of all facilities of communication.

During this time the normal development and expansion of all telephone systems was necessarily subordinated to governmental needs. Materials and equipment had to be utilized first in the construction and maintenance of lines for war purposes. Ordinary development and expansion waited.

The Bell Telephone System is making headway in its effort to overtake the demand for service which developed during this period of suspension, but some time will yet be required before the expansion of the business can proceed at normal speed.

## SCENE OF NATIONAL AUTOMOBILE PASSENGER CAR SHOW

Chicago's famous Coliseum, where the Chicago Automobile show will be held January 24-31, is pictured above. The Coliseum is the scene of many of the world's greatest spectacular events, including the G. O. P. convention and as an exhibition building ranks second to none in America. The Automobile show this winter will be so large that the officials will also have the Coliseum Annex, the Greer building and the enormous First Regiment Armory in which to display the cars.

## VALUE OF MOTOR TRUCKS DEMONSTRATED AT SHOW

Chicago Exposition, and Transportation Conference to Help Solve Great Problem.

Hundreds of inquiries about the big transportation conference to be held in connection with the National Motortruck show in the International Amphitheater, Chicago, January 24-31, have been received by Manager S. A. Miles, from all parts of the country. Interest in transportation problems and in the motortruck as a solution of some of the more pressing of them has become universal lately. Since the railroad question, fuel shortage and tie-ups of common carriers, because of labor difficulties, have forced upon the public a realization of how vital uninterrupted channels of communication are to human life, the motortruck has become a greater factor than ever before.

It is just this uninterrupted communication which the motortruck stands ready to supply. Emphasis on the war record of the truck has been placed ordinarily upon its service abroad. Not enough has been said about its achievement in rapid transportation of essential raw materials and finished products during the days when congestion on the railroads and shortage of coal forced the fuel administrator to stop all production by establishing fuelless days.

Broader and more direct opportunities for public service have been afforded to the motortruck since the war. In case of labor difficulties on the common carriers, urban populations must depend upon motor transportation for the necessities of life. Analysis of the use of trucks in various industries shows that the majority are employed in carrying such essential commodities as food, clothing, coal, building material, steel and iron. According to statistics furnished by a leading truck maker, coal dealers have invested over \$7,000,000 in trucks; grocers \$3,400,000; milk dealers and creameries \$1,500,000, and lumber men \$4,000,000.

Motor transportation is economical as well as dependable. The greater rapidity with which the truck can operate, its ability to supply 24-hour service, and elimination of the cost of several handlings by door-to-door delivery are factors that commend the use of motortrucks to managers of leading industries. Economy in distribution is passed on directly to the ultimate consumer in lower cost of living. The number of trucks in use has increased from 411 in 1904 to 435,000 at the present time. It is estimated that an average of 4,500,000 tons are hauled daily by motortrucks with a saving in transportation costs alone of \$236,000,000.

Recognition of its importance as an industry and as a trustworthy carrier is being accorded to the motortruck by the government and by individual consumers as well as producers and dealers in all commodities. The large attendance at the transportation conferences at the Chicago Motortruck show, which may already be foreseen, will comprise a fair cross-section of modern society with all classes represented. Experts will discuss the subjects of good roads, motor express, trucking efficiency, and all the other ramifications of the motor transportation ideas. Sessions will be held each afternoon and evening, and are bound to be of interest to manufacturers of trucks, dealers and agents selling them and consumers as well.

## ARTIST SOLVES PROBLEM.

The Motor Truck Show at Chicago Jan. 24-31, which this winter will be national in character, will be housed in the mammoth International Amphitheater. This building, as those who have attended the Horse, Live Stock and other shows will recall, is an unusually difficult one to decorate on a vast, systematic scale. Artist Tietzel, after considerable thought, has succeeded in solving the problem. The box and reserved seats on the south and north sides, will be completely hidden by curtains.

factory heads, dealers and traffic managers from all parts of the country asking for information of the subjects to be discussed at the conference. Men who are nationally known, and who understand their subjects from A to Z, will be the speakers. The various talks will be illustrated with lantern slides and motion pictures.

The motor express will come in for a good deal of attention. This particular phase of the industry has grown by leaps and bounds. The great war, which served to demonstrate how important the motortruck is in military affairs, also aided in getting foodstuffs from the farm to the city quickly and cheaply.

A large percentage of the visitors—thousands of them—will be farmers and stockmen. They are the largest users of motortrucks in this country. They are interested and attracted not alone by the actual displays—which will have much to aid them—but also in the conferences.

No less than 75,000 motortrucks were used by farmers last year to haul their products. Formerly farmers were discouraged in raising vast crops which they could not sell quickly and with profit. They were handicapped by transportation and had trouble marketing the surplus of their perishable products. The motortruck has changed all this.

The motortruck gives a serviceable and economical means of transporting vast quantities of products. It is fast, and enables the farmers to command the highest prices. Not only time is saved but the cost of labor is cut down, and side lines can be expanded, giving wider marketing area. Garden products are not the only things that profit by the motortruck. Live stock and dairy products also have their big inning.

Some time ago (it was during the early days of the war) Herbert Hoover said that 50 per cent of the perishable foodstuffs could not leave the place where grown because the producers were so far from markets. It was then that the motortrucks began to step in and save the situation.

That the trucks have earned their place in the vast world of industry is proved by the fact they carry not only foodstuffs but clothing, coal, building material, iron and steel.

Motortruck manufacturers and dealers look upon 1920 as the big truck year, and will open their campaigns in the Central West, the Northwest and South at Chicago. Hundreds of motortrucks will be on display at the International Amphitheater during show week, and it is believed that every available inch of space will be gone long before the gates are opened to the public.

Says Manager Samuel A. Miles: "The Chicago automobile show and the Chicago truck show should be the greatest on record. I am greatly pleased with the prospects and the interest that is being shown on all sides."

## INDIAN DECORATIONS TO FEATURE AUTO SHOWS

Indian designs and colors, made famous by the Hopi, Navajo and Apache tribes of New Mexico and Arizona, will predominate in the decorations for the Chicago Automobile and National Motor Truck Shows to be held in Chicago Jan. 24-31. It will be like stepping into some gorgeous Indian wigwam of mammoth size when the visitor enters the Coliseum, Coliseum Annex, Greer Building, First Regiment Armory and International Amphitheater, where the mighty industrial exhibitions will be staged.

For many years C. J. Tietzel, the celebrated decorative artist, has had this Indian idea in his mind, but this is the first winter he has had opportunity to realize his ambition on a vast scale. Three of the structures—the Coliseum, Armory and Amphitheater—are among the largest in the United States where shows of this character are held, and it is a monumental task to paint the tons and tons of decorations which will convert them into things of beauty.

For months Artist Tietzel and his staff of aids have been working on the acres of canvas at the Evergreen Park, Ill., studios. It is out there that those spectacular decorations of former shows were designed and completed.

## AUCTION SALE

The undersigned will sell at public auction at his place of residence 6 miles N. E. of Manhattan, 5 miles S. E. of New Lenox on the Kaffer farm on

# The Man Nobody Knew

(Copyright by Dodd, Mead &amp; Co., Inc.)

By HOLWORTHY HALL

## "LET 'EM MAKE ME LOOK LIKE THAT!"

Everyone knows about the Legion Etrangere—the famous Foreign Legion of the French army. Well, Richard Morgan of Syracuse, N. Y., enlisted in the Foreign Legion in the great war under the name of Henry Hilliard. So you can guess that the hero was not in love with himself or with life. The Hun sent him to the hospital with a wounded knee and arm and a face pretty much shot away with shrapnel. The surgeons fixed up his knee and his arm. When they proposed to restore his features, he lied and said he had no photograph of himself. And in his rage against life he caught up a picture postcard bearing the radiant face of Christ and cried:

"Let 'em make me look like that! Or anything else, either—I don't give a d—n!"

The French surgeons were interested and did a good job. And presently "The Man Nobody Knew" is back in Syracuse, telling of the death of Dick Morgan and selling mining stock and falling deeper in love with Carol Durant, the "only girl" of his old life who had refused to marry Dick Morgan, the failure.

Complications! Well, rather—especially when the mining stock apparently turns out to be worthless and the only man in the world who knows Hilliard's secret dies of apoplexy and the hero finds out that the heroine did love Dick Morgan. And Holworthy Hall handles these complications and these real, human characters and this American community in the masterly way that makes him read from one end of the country to the other these days. Good reading!

### CHAPTER I.

In the beginning of things, he was merely a number; but even that was creditable, because his number was low enough to signify that he had responded pretty promptly to the rallying call. After that, and with the cataclysmic suddenness which marked all changes of military status on the western front, he became, one frosty morning, a Case, and got himself roughly classified (and tenderly handled) as a Stretcher Case, a Grand Blessé, and, in consequence, a proper temporary inmate of a field hospital on the Belgian plains.

There, he was unofficially known as Joyeux, or Joyous One; not because he displayed a very buoyant disposition—far from it!—but because he belonged to the Foreign Legion; and in the course of another day or two he was routine-ticketed as an Evacué, and provided with a lukewarm hot-water bottle and a couple of evil-smelling cigarettes to console him on the road to the base hospital at Neuilly.

At Neuilly he became, for the first time since his enlistment, an Individual, and at the very outset he was distinguished by certain qualities which had passed unnoticed in the frying pan and fire of the trenches. For one thing, he was obviously immune to kindness; and for another, he was apparently immune to hope. He was a man of inveterate silence; not the grim silence of fortitude in suffering (which is altogether too common a virtue in base hospitals to earn any especial merit), but rather the dogged reticence of black moods and chronic bitterness. To be sure, speech was physically difficult to him, but other men with similar misfortunes spoke blessings with their eyes, and gave back gratitude in voiceless murmurs. Not so the Joyous One. From the day of his arrival he demanded nothing, desired nothing, but to brood sullenly aloof; and so, when he became an Individual, he also became a mystery to the nursing staff. It was rumored that he was an implacable woman hater, and there seemed to be something in it.

Regardless of the care of the American nurses (all hoveringly attentive to one of their own nation who had fought for France), his spirit remained abysmal and clouded in gloom. Only twice, in the initial month of his confinement, did he betray the weakness of an ordinary emotion; on each occasion a gold-laced general had come to salute, in the name of the republic, one of the Individual's neighbors, and to deliver a bit of bronze which dangled from a ribbon striped red and green. It was said (and doubted by those who hadn't seen it) that at these ceremonies the Individual had grown feverish, and let tears come to his eyes, but subsequently he had relapsed into still greater depths of stoicism than before; his own bed-jacket was innocent of cross or medal, and his depression was apparent, and acute. The nurses, arguing that perhaps his pride was wounded as seriously as his flesh, offered quick condolence and got themselves rebuffed with shrugs of the Individual's shoulders, and inarticulate sounds which had all the earmarks of suppressed profanity. He didn't even soften when Pierre Dutout, a hard-bitten territorial in the next bed, squandered a day's supply of energy to lean across and whisper sympathetically to him: "Old man . . . vieux espèce de choucroute . . . I know how it is . . . and I haven't got any friends either."

I want you to take my Croix de Guerre. . . . When I go nowhere."

Even when speech returned to the Individual he was a man of curt responses and stinging monosyllables—a problem to the surgeons, a problem to the nurses and (if the expression in his eyes meant anything), an overwhelming problem to himself. It appeared that, after all, it wasn't simply women that he hated—it was the universe.

His military book implied that he had no parents, no close relations, no friends to notify, no fixed abode. He received no visitors, no letters, no packages freighted with magical delight. But to those who pitted him in all his loneliness he was utterly contemptuous; he even went so far as to flip sidelong to the floor a religious post card tendered him by a devout and sentimental passer-by, and he did it in her presence, unashamed. Later, when a smiling orderly picked up that post card and tucked it under his pillow he was no less contemptuous in permitting it to remain. But the one stupendous fact which, more than all else combined, made him an object of bewildered curiosity was this—that of the scores and scores of men with head-wounds who were reborn at Neuilly that spring and summer, he was the only one who had never asked for a mirror.

This, of itself, wouldn't have been astonishing as long as he delayed in the preliminary stages of recovery, for how and then a man with head-wounds proves to be super-sensitive; but in the second stage it was remarkable, and in the third stage it was unique. The staff held it to be extraordinary from a social as well as from a pathological viewpoint, that a man so terribly disfigured should have no interest—not even a morbid interest—in his own appearance. And it wasn't that the Individual was simply indifferent to the mirror; on the contrary, his aversion to it was active and energetic; he flinched, and motioned it frantically away as though the mere conception of seeing himself as others saw him was too repellent, and too unthinkable to endure.

There came a day in April when a photograph was requested of him. Surely he knew where there was a likeness of himself, didn't he? His old passport photograph, which had mysteriously disappeared, or—

The Individual glanced up from his present task; the wound in his arm was still annoying and he was absorbed in learning to write with his left hand.

"What for?" he muttered.

"Why," said the nurse, cheerfully, "for a model. To help the surgeons. They'll take your picture for a guide and make you look almost exactly the way you did before."

The Individual from America sat up straight, so that the nurse was startled by his animation, which was without a parallel in his local history.

"What!" he said.

"Certainly!" The nurse spoke in the tone one uses to an ailing child. "You've known that, haven't you?"

The Individual's voice was queerly unmanageable and strained. "You mean to say they're going to make me look the way . . . Could they do that? Could they? Even now?"

"Why, of course," she assured him. "You never told me that!" he said, passionately. "Why didn't you? Why couldn't you have told me! And here I've been . . ." He put his hands to his bandaged face and seemed to shrink within himself. Then all at once

he burst out: "Well, there's nothing to prevent . . . Then they could make me not look like it, if they wanted to! Isn't that so?"

She regarded him in vast perplexity, and thought of summoning a surgeon, for the man had begun to quiver as though from shell shock—which he hadn't undergone.

"Why, I don't understand what you mean," she said soothingly. "But if you'll just be calm and—"

The Individual gestured with fierce impatience.

"If they can do what you say, and make me look like any old thing they choose to, then what in the devil are they asking for a photograph for?"

"Why, to go by," she said helplessly. "You want to look like your old self, don't you?"

"No, I don't!"

The nurse gasped. His tone had been cheerful, but the echo of it vaguely suggested triumph and relief. His symptoms had subsided . . . could it be that he actually was relieved? Dumfounded, she made another effort to convince him.

"But you want to look just as nearly like—"

"Don't you suppose I know what I want?" he interrupted rudely.

"But haven't you a photograph, anyway, that I can—"

"No, I haven't!" he snapped. "I haven't!" It was a lie; the passport photograph was in the lining of a certain wallet, and he had hid it there for reasons of his own. But now that one great danger was definitely past, and a still further bulwark of protection offered, if the nurse spoke truth, the Individual could afford to come out from ambush. "And I don't want to look the way I did before, and what's more I never did! But if your doctors are half as smart as they think they are let 'em make me look like that! Or anything else either—I don't give a d—n!"

Shocked and horrified, she was gazing at a picture postcard he had snatched from under his pillow and thrust upon her. It was a reproduction of a religious painting by Rembrandt. It was the radiant face of the Christ.

### CHAPTER II.

Nine o'clock on a night in June—not a June evening, heavy-starred on velvet, but a furious June night, with Stygian blackness looming overhead, and Stygian water battering and boiling against the hull plates. The ship was dark as the night itself; blind dark, without a single ray to play the traitor. On deck a solitary venturer hugged the rail, and apathetically watched the waves tear past.

Out of the warmth and cheer and the vitiated atmosphere of the smoking room came Martin Harmon, big, florid, exuberant. A heaving lift of the deck sent him lurching sidewise; he saved his balance by struggling

"Let Them Make Me Look Like That."

toward the rail, when suddenly the slope was reversed, and he slipped and slid to the barrier of safety, clutched it, and found himself at arm's length from the lonely watcher, who hadn't stirred, or even turned his head.

"Hello," said Harmon, his surprise flattered with easy familiarity. "Some night!"

"Yes, it is." The tone of the response was curt, so curt that Harmon instinctively leaned forward to discover what expression of countenance went with it. The night was so black that he might as well have tried to penetrate a curtain of solid fabric.

"Seen any U-boats yet?" he asked humorously.

"Not yet." The taciturn one moved a trifle away; a man less thin-skinned and less dined and wine-d than Harmon would probably have taken the hint and removed himself, but Harmon was an inquisitive disposition, and he never attempted to curb it—he was the sort of traveling companion who makes Christians reflect up-

on the definition of justifiable homicide.

"What is your line?" he inquired after a pause.

The other man laughed queerly.

"The first . . . if it makes so much difference to you."

"Beg pardon? I don't quite get you. You said . . ."

"I said the first line. I meant the first-line trenches. I've been in it."

Harmon jerked his head upward in comprehension.

"Oh, I see! You mean the war! And you've been right on the spot where the fighting is? Pretty lively up there, isn't it? Something stirring most all the time?"

"I imagine so." The other man's accent was amazingly diffident, and Harmon peered at him, incredulous.

"Good Lord, don't you know?"

"Not a great deal. I happened to get hit the first day I was in the trenches."

"But you got in it again afterward, I suppose? I'll bet you did!"

"No."

"What! You never got back at all? Just one day, and you're through?"

"Yes. After I was discharged from hospital I was discharged from the army too. Permanently unfit."

"English army?"

"No—French."

"Well, that's some record!" said Harmon appreciatively. "That certainly is some record! Not to say tough luck—the toughest kind. Going back home, I take it?"

"Looks that way, doesn't it?"

Harmon ignored the sarcasm.

"Back to work, eh? What did you say your line is?"

"I didn't say. I haven't any just now."

Harmon pondered a second.

"Oh! Gentleman of leisure? Soldier of fortune, eh? Well, I wouldn't worry if I were you. You're disappointed; that's natural . . . but the world hasn't come to an end yet. Of course it is something of a come-down to leave the army and get into harness again, but after all there's plenty of excitement right in the United States. Big work to be done, son! Big money to make. And it helps the war along, too. I tell you there never was a bigger opportunity to make money than there is right this minute. The hard job isn't to find the scheme; it's to find the men to run it. Don't you worry . . . you'll land something right off the bat!"

"Thanks for the compliment!"

"Oh, it's no compliment! Anybody can make money these days. It's a plain statement of fact . . . Say, let's go in and have something. Come in and be sociable. What you want a drink. Am I right or am I wrong?"

"Well—"

"And that's what the doctor ordered! Come on! It's on me."

The other man hesitated, and at last succumbed, out of sheer unconcern, to a companionship he realized in advance would be distasteful.

"All right," he consented briefly; and together, arm in arm, they stumbled and tacked across the treacherous deck, and presently crossed the threshold into the hazy light of the smoking room. Harmon, smiling broadly, wiped the brine from his smarting eyes.

"Now, then," he said, "what particular brand of poison do you—?" And broke off short and stared, fascinated, at the extraordinary young man in front of him.

He was anywhere from twenty-five to forty, this American from the distant trenches, and his age was as hard to guess as a clever woman's; there was something about him peculiar to youth, and yet when his face was in repose, he might easily have claimed two score of years and gone undisputed. It was a face which suggested both the fire of immaturity and the drain of experience; there was breathtaking gravity about it, a hint of the dignity of marble, of ageless permanence. It was a slightly thin face, scarred by a heavy line or two, and indelibly stamped with the evidence of intense thought and inward suffering; but it lacked the hollows which, at the first glance, should have supported the evidence. It was a thin and oval face, with a mouth of large and sympathetic sweetness, a forehead white and high, a prominent, delicate nose, and irises of clear, luminous gray. It wasn't altogether an Anglo-Saxon type of countenance, nor was it definitely European; it seemed rather to have taken all the better qualities from several races. It was a face to inspire immediate trust and confidence and respect, and Harmon, despite his lack of practice in all three of these reactions, was evidently attracted by it.

"Vichy-Celestins for me," said the old-young man indifferently.

"I'll . . . I guess I'll have vichy too," said Harmon, relaxing. "If it wasn't for something I can't just describe I'd say . . . well, never mind. Er . . . what business have you been in, by the way?"

The younger man's reply was tardy and not particularly gracious.

"Why, the longest time I ever put in at any one business was selling insurance. The last thing I did was to sell bonds. Why?"

Harmon stiffened. "A salesman!"

Good Lord! That's the last thing in the world I'd have . . . but, say!

You must have been a whirlwind! Why, a man with a presence like yours would hardly have to open his mouth!

You've got a sort of . . . I'll be hanged if I know what to call it . . . but a kind of feeling, if you know what I mean. Salesman! Why, all you need is an introduction and a dotted line!"

The young man laughed rather forlornly and sipped his vichy.

"Just at present I haven't either."

Harmon's gaze was unfaltering, and his interest and admiration bounded higher. Mechanically, in accordance with his habits, he was striving to discover how this new acquaintance might be put to practical use. "Was

Meaning What?"

I right, or was I wrong? Playing in hard luck don't strengthen a man's courage much, even if he tries to bluff himself into thinking it does. Cut out the regret stuff; that's my advice, and you can take it or leave it. Forget all that tough luck you had over here, and get busy figuring out how you're going to cash in on all your experience. America's full of chances—you'll land something big in no time. Can't help it if you try. Salesman! Son, you're carrying your best recommendation right on top of your own shoulders!"

The young man gave him back a wry smile and finished his vichy.

"I only hope it comes true," he said.

Harmon looked at him steadily, and falling under the spell of those radiant features stared and stared until he came to himself and all at once brought his fist down on the table, so that the glasses rang again.

"Well, why shouldn't it? As a matter of fact, why shouldn't it?"

The younger man's expression hadn't changed. "Meaning what?"

"Meaning," said Harmon deliberately, "that the first thing I've got to do when I get home is to hunt up a couple of good salesmen myself. Are you hunting for a good job, or aren't you?"

"Aren't you a little hasty?" The young man's intonation was sardonic.

"I've cleaned up most of my money," said Harmon very slowly to the ceiling, "by making quick decisions. I make up my mind pretty fast. If you can interest me on short notice you can interest other people. Mind you, we're just discussing this—sort of thinking out loud. No obligation on either side. Doesn't do any harm to talk about it, does it?"

"Then suppose," said the young man placidly, "you define your idea of a good job. I'm rather particular."

"But you admit you're out of luck, and—"

"But you admit I'm a whirlwind." The young man smiled with faint amusement.

"I said you ought to be—with training."

The young man's mouth turned upward at the corners.

"Go ahead and describe the job."

"Well, my idea of a pretty sweet job for a man of your age is—to start, of course—about twenty a week and commissions."

"Yes? What per cent commission?"

"Oh, eight to ten per cent."

The young man glanced at Harmon and laughed quietly.

"You're a broker, of course, but that doesn't sound much like conservative investment securities to me. What is it—Industries?"

Harmon grimaced.

"Yes, I'm a broker." He set down his glass and fumbled for a card.

"There! But I was thinking more about stocks than bonds. Some new Montana properties—copper and zinc. Metals are the big noise these days. I guess you realize that, don't you? Munition work."

"I'll show 'em whether I can make good or not!"

(TO BE CONTINUED.)

## BELCHING Caused by Acid-Stomach

Let EATONIC, the wonderful modern stomach remedy, give you quick relief from disgusting belching, food-repeating, indigestion, bloated, gassy stomach, dyspepsia, heartburn and other stomach miseries. They are all caused by Acid-Stomach from which about nine people out of ten suffer in one way or another. One writes as follows: "Before I used EATONIC, I could not eat a bite without belching it right up, sour and bitter. I have not had a bit of trouble since the first tablet."

Millions are victims of Acid-Stomach without knowing it. They are weak and ailing, have poor digestion, bodies improperly nourished although they may eat heartily. Grave disorders are likely to follow if an acid-stomach is neglected. Cirrhosis of the liver, intestinal congestion, gastritis, catarrh of the stomach—these are only a few of the many ailments often caused by Acid-Stomach.

A sufferer from Catarrh of the Stomach of 11 years' standing writes: "I had catarrh of the stomach for 11 long years and I never found anything to do me any good—just temporary relief—until I used EATONIC. It is a wonderful remedy and I do not want to be without it."

If you are not feeling quite right—lack energy and enthusiasm and don't know just where to locate the trouble—try EATONIC and see how much better you will feel in every way.

At all drug stores—a big box for 60c and your money back if you are not satisfied.

## EATONIC

(FOR YOUR ACID-STOMACH)

## ITCH!

Money back without question if HUNT'S SALVE fails in the treatment of ITCH, ECZEMA, RING WORM, NETTLES or other itching skin diseases. Price 75c at druggists, or direct from A. B. Richards Medicine Co., Sherman, Tex.

Their Use.

"What do they use bits on vessels for?" "I guess they are to use in the teeth of a driving gale."

## WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper—Adv.

There must be something wrong with the vision of some people who do their duty as they see it.

## DYED CHILD'S COAT

## AND HER OLD SKIRT

"Diamond Dyes" Made Faded, Shabby Apparel So Fresh and New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings—everything!

The Direction Book with each package tells how to diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.—Adv.

Just because a girl doesn't love a man is no sign she doesn't want him to make love to her.

## Eases

## Colds

At once! Relief with

"Pape's Cold Compound"

The first dose eases your cold! Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

Relief awaits you! Open your clogged-up nostrils and the air passages of your head; stop nose running; relieve the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Tastes nice. Contains no quinine. Insist on Pape's.—Adv.

Never put off until tomorrow the golf you can play today.

## MURINE

Night and Morning! Have Strong, Healthy Eyes. If they Tingle, Itch, Smart or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Soothes, Refreshes. Safe for Infant or Adult. At all Druggists. Write for Free Eye Book. Murine Eye Remedy Co., Chicago

## LET "DANDERINE" BEAUTIFY HAIR

Girls! Have a mass of long, thick, gleamy hair

Let "Danderine" save your hair and double its beauty. You can have lots of long, thick, strong, lustrous hair. Don't let it stay lifeless, thin, scraggly or fading. Bring back its color, vigor and vitality.

Get a 35-cent bottle of delightful "Danderine" at any drug or toilet counter to freshen your scalp; check dandruff and falling hair. Your hair needs this stimulating tonic, then its life, color, brightness and abundance will return—Hurry!—Adv.

### Ominous.

"What do you think of this egg situation?"  
"It's rotten."

### Catarh Cannot Be Cured

by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarh. It is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarh conditions. Druggists fee. Testimonials free. F. J. Cheney & Co., Props., Toledo, Ohio.

### Her State.

"She is extravagantly fond of that fur cloak of hers, isn't she?"  
"Yes; she's just wrapped up in it."

## "CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."—Adv.

You seldom hear a man speak of the hole in his pocketbook any more. He refers to it as the rent.

### RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

Shortages may come and shortages may go, but there are always Christmas trees to burn.

## Gowns That Win Favor in Paris

From present indications, writes a leading fashion correspondent, the Parisienne is not going to adopt any of the fantastic features that appeared in earlier models. She is accepting, however, in a very marked way, certain of the models which have distinct new features without any unbecoming or bizarre silhouette.

The Parisienne is too fond of her own personal appearance to go in for anything that is grotesque. She has worn too many good clothes and has too much personal taste and refinement in dress to go contrary to principles. Thus we find that out of the earlier showings, which carried all kinds of extraordinary hip extensions and queer girdlings, loops and draperies, the chic Parisienne has chosen straight lines, simple waistline beltings, soft colors and the natural silhouette.

This will come as no surprise to those who are close students of fashions in women's dress. Only the extremists were enthusiastic about the marked hip extensions and the complicated draperies.

### Czecho-Slavic Idea Proves Success.

As prophesied, the Lanvin models in the Czecho-Slavic feeling have proved a success. While these dresses are of marked type, they are not bizarre in any way. In fact, they are most refined looking, with delicate thread embroidery in black on white or stone color. The best dressed women in Paris are wearing these gowns, which are of a straight chemise-like cut, but slightly girdled at the waistline with a string tie of the same material, which seemingly is drawn in as tightly as possible around the figure. This gives the appearance of being practically uncorseted, the stomach and hips bulging in a natural manner.

While the fashions of Jugo-Slav origin were thought by some to be extreme, they really were not. Probably the most remarkable feature about them is the great number of ideas which they embody.

### Has Trouserlike Effect.

An example of how a costume that is simple and beautiful has been worked out from the long-coat garment with trouserlike underskirt, which was one of the most conspicuous notes in the Jugo-Slav collection, is a Lanvin model. It was she who first introduced this type of dress.

It is developed in pale castor colored velours de laine, the bottom band, which takes the place of the trouser underskirt, being black broadcloth and the collar of fisher fur, or pekan, as it is called in France. The embroidery is black, with the exception of a touch of red around the pockets, the prevalent fashion of having a breast pocket for the watch and

The influence of the Jugo-Slav is quite apparent in the model sketched above, developed in castor-colored velours de laine. A tight broadcloth underskirt gives a trouserlike effect.

wearing the watch on a fob. Sometimes a little jeweled ornament hangs from the end of the ribbon.

Another of Lanvin's very popular dresses has just come from Paris. It is a simple frock of the type in which a woman will always look well dressed and that will appear to be in the height of the mode for some time to come. This is desirable in these days of expensive fabrics, for even if we make our own dresses we feel that we must use cloth sparingly until there is some readjustment of prices. Then it is a nice thing to have a dress such as this in one's wardrobe, because it fills so many needs. One may shop in it in the early morning hours, walk in the afternoon or stop for tea among the most smartly dressed women and still feel comfortably and suitably dressed.

### Coat of Blue Velours.

Paquin makes such a coat of very dark blue wool velours. It has a flaring collar of astrachan, the same fur

forming an edge down the entire front of the coat and making deep gauntlet cuffs. While this wrap is very simple it is of the type worn over dressy afternoon costumes, as well as a matching coat for the plainer velours or duvetyn dresses. It is smart to have one of these long coats exactly matching the frock.

Paris makes a great feature of very heavy wool embroidery done in a loop stitch, like tapestry. This is sometimes sheared to form little square tufts which stand away from the surface of the fabric a quarter of an inch deep. Sometimes a part of the pattern is clipped and the rest left in a tight loop. All patterns are geometrical and form deep, thick-looking borders on coats, collars and cuffs. To some degree this embroidery resembles a fur. It is almost overdone by Premet, as

Coats as well as dresses are drawn in tightly about the waistline to accentuate the natural lines of the figure. The one of wool velours above has a collar, gauntlet cuffs and edging down the front of astrachan.

she uses it on so many models. The idea, however, is interesting and new. Monkey Fur Still Popular.

Despite its great use last winter, monkey fur continues to be popular. It is very expensive when used in any quantity. As a garniture for dresses and suits it is not considered really smart unless used in the form of deep borders and enveloping collars. Lanvin has a delightful little dress with a deep border of jet black monkey fur at the bottom of the skirt. One of the most successful models from Madeleine is a coat of pearl gray checked in black and trimmed with a wide skirt band and a collar and cuffs of monkey fur. This coat is worn over a black velvet one-piece dress.

As to fur trimmings there is almost no tailored suit that has not fur trimming of some kind. The one-piece fashionable dresses, or robe manteaux, are also heavily fur trimmed.

One thing specially to be remarked is the little use of the muff. Possibly the mantle type of wrap has made the muff unnecessary, as the wearer folds the mantle around her and holds it in place; thus it would be very awkward to carry a muff.

### ODDS AND ENDS

Belts are semifitted. "Poison green" is a favorite color. Feather dresses are much in vogue. Afternoon gowns show huge revers. Belts are narrow and sometimes wrap the figure twice.

Suit coats are lined with bright printed tussah.

Cherry red and pearl gray are favored colors in the millinery world.

A general use of platings is noticeable in many of the new frocks.

Checked velours of henna and navy will be used for southern sport wear.

Some suit blouses are of high colored silks, trimmed with the suit cloth.

Many tailored blouses for spring will be of plain and frilled dotted swiss.

Accordion-plaited insertions may be used to give the prevailing side fullness.

### Detachable Capes.

Judging from the winter's fashion notes, there are to be a good many coats with detachable capes. Sometimes a little fur cape is to be part of a cloth coat—a detachable part, that may be put on and taken off the coat at will.

### Bleach for White Goods.

To bleach handkerchiefs, towels, etc., soak overnight in a solution of half a teaspoonful of cream of tartar to each quart of water.

## IT IS SO OBVIOUS—ISN'T IT?

It is obvious that every machine must be kept clean, otherwise it will stop one day. If you clean your automobile carefully, you must not forget that your stomach is also such a machine. Triner's American Elixir of Bitter Wine is the best cleaning remedy. Indigestion, constipation, gases, headaches, insomnia, all will vanish as soon as the intestines will be clean. No wonder if so many thousands of clients are satisfied with Triner's remedies. Mr. Martin Netry, P. O. B. 71, Oakley, Mich., wrote us on Dec. 6: "I am using your excellent American Elixir of Bitter Wine for several years and I am very satisfied with it as well as with Triner's Liniment which is very praiseworthy, being excellent especially for stiff muscles." Your dealer has now after the inventory a full stock of Triner's remedies, please pay a visit to his store.—Joseph Triner Company, 1333-43 S. Ashland Ave., Chicago, Ill.—Adv.

### Cruel Comment.

"I tell you, sir, this question of bread in the household is a weighty one."

"You talk as if you had been eating some of my wife's biscuits."

### Cuticura Comforts Baby's Skin

When red, rough and itching with hot baths of Cuticura Soap and touches of Cuticura Ointment. Also make use now and then of that exquisitely scented dusting powder, Cuticura Talcum, one of the indispensable Cuticura Toilet Trio.—Adv.

The welfare of this nation rests on a happy, contented, and prosperous rural people.—McIntosh.

Even a deaf man seldom overlooks an invitation to take something.

## Was Going Down-Hill

Mrs. Bergman's Friends Were Worried, but Doan's Brought Remarkable Recovery From Kidney Complaint.

"I couldn't sit down without putting a pillow behind my back," says Mrs. Ole Bergman, 820 Pennsylvania St., Gary, Ind. "When I bent over it felt as though somebody had stuck a knife right into my back and I would often fall to the floor. The kidney secretions made me get up four and five times a night. There would be only a small amount, which would burn so that I would almost scream. Before long my body bloated and my feet were so swollen that I couldn't wear my shoes. My skin looked shiny and when I pressed it down it left a dent. I had chills and fever. Sometimes I would sweat so that I could fairly wring the water out of my clothes. Everybody said I was going down-hill fast. In two months I lost fifteen pounds and was discouraged. By the time I had finished three boxes of Doan's Kidney Pills I was entirely cured and I have enjoyed the best of health ever since."

Mrs. Bergman

W. N. U., CHICAGO, NO. 3-1920.

## ASPIRIN

Introduced by "Bayer" to Physicians in 1900

You want genuine Aspirin—the Aspirin prescribed by physicians for nineteen years. The name "Bayer" means the true, world-famous Aspirin, proved safe by millions of people. Each unbroken package of "Bayer Tablets of Aspirin" contains proper directions for Colds, Headache, Toothache, Earache. Aspirin is trade mark of Bayer Manufacture Monocetacidseder of Salicylicacid.

## GOT BACK AT CARICATURIST HAD SUBLET THE CONTRACT

Laundry People Evidently Have Their 'Bump of Sensitiveness Quite Well Developed.

Herbert Johnson, the humorous illustrator, said at a dinner in New York:

"Laundry people are the most sensitive folk on earth. Other classes are good natured when I cartoon them, but anything against the laundry causes the whole trade to get its back up.

"I did a comic once about the way some laundries wreck a man's shirt. Well, a laundry trade paper came out the next week with a two-column attack on me. One sentence I remember was:

"Probably this artist never wore a shirt in his life."

"And then, apropos of a thumb-nail sketch about the way a laundry had wrecked a white dress tie, the paper added:

"If the artist knew anything about fashionable society he would understand that gentlemen do not tie their own ties, but buy them ready made."

### She Nearly Died.

Luncheon was being served and when the maid handed me my cup I looked at my hostess and said: "I am so pleased you are serving tea today." She turned white and said: "It's coffee, and it does look weak." Well, I nearly died with embarrassment.—Chicago Tribune.

### Change in Scandinavian Currency.

At a conference in Christiania directors of the mints of all three Scandinavian countries considered the question of replacing silver with nickel in the small coins, owing to the high price of silver. Before becoming effective the proposition must be approved by the legislative bodies.

And Doughboy Was Satisfied His "Hole" Would Be Finished Without Too Much Delay.

The restless individuality of the American soldier, who was always seeking a shorter way to do things, made him appear to the French and British as hopelessly undisciplined. Even in battle the doughboy hated to follow precedent.

A unit of the Seventy-eighth division, pressing on under shell-fire in the battle of the Meuse-Argonne, finally stopped under orders to dig in as fast as possible. In a few moments dirt was flying along the whole line.

"Out in front, however, just behind a slight natural mound, one doughboy lay motionless with his rifle slanting toward the enemy.

"Make a hole! Make a hole!" yelled the lieutenant, coming up.

"Sh-h," don't excite my contractor," the doughboy replied.

Over the edge of the mound the lieutenant saw a German prisoner feverishly digging almost at the end of the doughboy's gun.—The Home Sector.

### Quite Evident.

"You are a very backward pupil," remarked a schoolmaster, "of the hopeless sort that taxes one's patience to the utmost. It seems to me that you are never able to answer one of my questions. Why is it?" "Well, sir," the pupil replied, "if I knew all the things you ask me, I suppose my father would not go to the trouble of sending me here!"

The man in jail doesn't have to dodge automobiles.

The truth is all right, but so many people are ashamed to tell it.

## How Competition Helps You

The competition that exists among the hundreds of meat distributors, large and small, means

Rivalry in Prices  
Rivalry in Service  
Rivalry in Economy  
Rivalry in Quality

Swift & Company sells meat at the lowest possible price, consistent with quality and service. Our profit of only a fraction of a cent a pound on all products is evidence of keen competition.

Swift & Company must provide the best service to your dealer or he will buy from our competitors. This means a supply of fine fresh meat always on hand for you at your dealer's.

Swift & Company must keep down manufacturing and selling costs, and use all by-products to avoid waste, or else lose money meeting the prices of competitors who do.

Swift & Company must make its products of the highest quality, or see you turn to others. This means better meat for you and a greater variety of appetizing, wholesome food.

We are as glad for this competition as you should be. It helps to keep us on our mettle.

Swift & Company, U.S.A.

## WOMAN JOURNALIST OF CHINA

Miss Soumi Ching, one of China's leading journalists, who has come to America to represent the Chinese in this country, is one of the best-informed women in the empire and represented a large group of Chinese journals and magazines at the Paris peace conference.

### Expect to Uncover Treasures.

Mullingar, capital of County Westmeath, Ireland, is on the tip-toe of excitement because of a hunt for treasure trove. Gold coins of great size have been found in an old passage way discovered under a field. They bear inscriptions of currency "that undoubtedly have Ogham origin." Ogham inscriptions are found only on ancient monuments in Ireland and other Celtic countries. Their origin is wrapped in mystery. Cooking utensils have also been found. They are of material far better than that used in these out-of-date times. But this is only a beginning. The passage has just recently been struck by workmen carrying out excavations for drainage. There are strong indications that treasures trove and valuable mementoes of past ages are to be found in the passage, which it is believed must lead to an earthen fortification.

### Baby Always Star Performer.

Every member of the family with the exception of the growing boy will sometimes wake up in the middle of the night, but the others can get as wide awake as baby.

### "Amen Corner"

The phrase "amen corner" is said to have originated in London, where, at the end of the Paternoster row, the monks at one time finished their recitation of the "Pater Noster" as they went to procession on Corpus Christi day at St. Paul Cathedral. They began in Paternoster row with the Lord's prayer in Latin, continuing it to the end of the street, and then said "amen" at the corner of the row. As used in this country the phrase describes the corner of a church where the elderly members sit and pronounce the word "amen" at intervals.

### So It Goes.

The Lowry City Independent has an idea that the old fellow who became rich by burning the midnight oil doubtless now has a son who is prodigal with the midnight gas.—Kansas City Times.

### Women Senators of Old.

Rome, as early as the year 218 A. D., recognized a senate of women. This senate, though, differed from most others by confining its considerations and its discussions to matters of etiquette and dress. The assembly had the approbation of Elagabalus and held its meetings in the Quirinal. Cruelty, extravagance and vice were the outstanding characteristics of the reign of Elagabalus. Hence, the necessity of having conferences of the sort.

The News Bulletin is prepared to do all kinds of Job Printing at Reasonable Prices.

### Why Blossoms Are Odorous.

The blossom or flower is the forerunner of the fruit or seed of plants, as a general proposition. It is necessary that the insects and flies and bugs and bees visit these blossoms to carry the pollen from one to another. The pollen is the floury stuff, like golden dust, frequently, that you see in the blossoms. This pollen is the very life of the fruit or seeds, and it must be mixed with the pollen of other blossoms or there will be no seeds.

So the blossoms are odorous to attract the bugs and bees and insects that are to carry the pollen from one plant to another.

### Pure Air.

Pure air is blue, because, as Newton tell us, the molecules of the air have the thickness necessary to reflect blue rays. When the sky is not perfectly pure the atmosphere is blended with crepuscular vapors, and the diffused light is mixed with a large proportion of white.

### Pre-Glacier Tree Found.

Discovery has just been made in the Hohnan iron mine, near Taconite, Ince county, not far from the source of the Mississippi river, of the trunk and branches of a prehistoric pine tree in an excellent state of preservation and with pine cones about it. The tree is not petrified. The wood is as sound in the main as though it had been felled only a few years ago and the pine cones are still pliable. The wood with exposure to air has not softened or crumbled.

The tree was exposed by a steam shovel. It was found under 75 feet of glacial debris. It grew millions of years ago. It is apparent that sand and gravel were packed so firmly about the tree when carried down by the ice cap called the great glacier that covered North America down to Ohio, that no oxygen could penetrate and that the tree was saved from rot by the great glacier.

Shark's teeth and other evidence of marine life are found in abundance in the same mining pit.

Job Printing done at this office.

### "Age Cannot Wither."

A tradesman was brought before the magistrate charged with having sold unwholesome articles for consumption as food. The charge was fully proved. "I wish to point out to the court," said counsel for the defense in a dignified tone, "that the house of business that I have the honor to defend was founded in 1802." "Has it renewed its stock since that date?" asked the magistrate.

### Alcohol From Moss.

A Swedish syndicate is planning to distill alcohol spirit from white moss, there being enormous quantities of it available.

### Oldest Writing.

The British museum contains the oldest known examples of Chinese writing, in the form of inscriptions on animals' bones.

News Bulletin only \$2.00 a year. The best local paper in Will County.

## The Supreme Farm Engine

THE famous "Z" Engine and the Bosch high tension, oscillating magneto combine to make the one SUPREME farm engine. Call on us and see the result of this new combination—FAIRBANKS-MORSE "Z" WITH BOSCH MAGNETO. We are substantially assisted in following maximum engine service by a nearby Bosch Service Station. Prices—1 1/2 H. P., \$75.00—3 H. P., \$125.00—6 H. P., \$200.00—all F. O. B. Factory.

Tinley Park Machine Shop and Garage

## From Cow to Letz Grinder

Start Your Calves Right

Quit the unprofitable, slow-growing method of raising your calves and pigs. As soon as they are weaned put them on a balanced ration of nourishing ground-feed. It means a better start. It means bigger profits. It means a tremendous saving if you grind the feed with a

**LETZ**  
America's Leading Feed Mill

Grinds corn, oats, clover and all—grinds it with cow-peas, soy beans, clover, alfalfa, concentrates, anything grindable—grinds it into fine nourishing feed at least cost for you. Letz Mills are unbeatable in fine cutting, light running, capacity, durability. All due to Letz patented self-sharpening grinding plates. They have 640 keen cutting edges that shear, grind and pulverize all in one operation. Hundreds of thousands of satisfied users. Let us demonstrate a Letz Mill today.

Always on Hand at Adam Schilling, Tinley Park, Ill.

# How You Can Become a Stockholder in the Public Service Company

Of Northern Illinois

TWO sources of steady income are open to every man and woman—the earnings from work and the earnings from investments. The man who is best off—the successful man—sees to it that he is not dependent for his income on his earnings from work alone. He saves regularly and consistently and invests his savings in sound and successful enterprises. These enterprises put his money to work and pay him dividends for the use of his money.

If you can save a few dollars each month, you, too, can have a regular income from an investment—and this will but prove to be the beginning of other reliable investments that will surely bring you ultimate financial independence.

## For a LIMITED Time Only

customers and employees of the Public Service Company are offered an opportunity to purchase a block of our 6 per cent. Cumulative Preferred Stock for

**Only \$5 Down and \$5 Per Share Per Month**

Not more than five shares allotted to any one subscriber on these easy terms.

Our purpose in offering this stock to you, is to give as many of our customers and employees as possible an opportunity to become profit-sharing stockholders in the business—so that each and everyone of you will become interested financially in the service which we are rendering the community. We want many customer stockholders rather than a few—we want everyone who uses our service to share in our profits.

## An Easy Way to Save

Think of your future. If you save now and invest your savings in a business of stability and assured safety which pays you dividends of \$6.00 per year for each \$100 share, such as you will receive from this stock, you need not fear old age. The terms offered you for the purchase of this stock are the easiest possible—your money will be as safe in this big, steadily-growing company as it would be in the bank—yet it earns 6 per cent. for you.

Thousands of our customers have already purchased shares of this stock on the above plan. Your neighbor undoubtedly has acquired his allotment.

The stock is selling fast. Our offer may be withdrawn at any time. Call at our local office today or at your bank for particulars. Price \$100 per share as fixed by the Illinois Public Utilities Com.
